

Do you have a
juvenile record in
California?

You may be
eligible to . . .

SEAL IT!

SEAL IT is a free
online tool to help
you seal your
juvenile records.

Why Should You Seal Your Juvenile Record?

Your juvenile record is not automatically sealed when you turn 18. It could hurt your ability to find a job, get a driver's license, or get into college.

If you are a non-citizen, it could make you ineligible for citizenship.

Once your record is sealed, it's as if the proceedings never took place. You can legally say you were never adjudicated or arrested for the sealed offenses.

All 58 counties in California have different record sealing processes. Seal It! includes a step-by-step guide through each county's process, as well as important contact information, fee information, and much more!

Visit www.sealit.ca.org for more information about how to seal your juvenile record
